SoSushi 2014 Financials

The company is pleased to announce that the 2014 SoSushi financials have been approved by the SoSushi Shareholder AGM.

Since the Company's acquisition of its 99.3% stake, SoSushi has been restructured and simplified.

During the restructuring, which is still in progress, the best franchises have been re-signed with improved contract terms; others, without adequate quality standards, were terminated.

SoSushi today comprises 5 franchises based on the new agreements and 4 in negotiation. SoSushi now has no directly owned restaurants in Italy, but receives a monthly fee from an affiliated restaurant and from 2015, 4% of the yearly revenue of each franchise restaurant. The average annual sales of a franchise are about €300,000.

The Company has started a program to open directly owned restaurants in the major capitals in Eastern Europe (with attractive margins, economic growth and much lower costs). The first one has already been opened and operating profitably since January 2015.

In 2014, SoSushi reported an income of €70,279, a profit of €45,077 and a net equity value of €698,608.
